Certified Full Stack Web Developer | CWD

Introduction to the Course

A **Full Stack Web Developer** means someone who develops both the **front-end** and the **back-end** of a website. **Full Stack Developers** are in very high demand in many of the multinational companies that we see. Website of any company can be considered as the face of any company, so it is the calibre of the developer to build an optimised website.

In this course the students will be taught about every details of **Web Development** from scratch which will help the students to gain a qualitative knowledge and work on them in real life. At the end of this course students will be able to do both **front-end** and **back-end** developments for any fully functional website. Training will be given by industry professionals, who are working in this field for several years.

Main areas to be covered: -

- Hyper Text Markup Language (HTML)
- Cascading Style Sheet (CSS)
- Hypertext Preprocessor (PHP)
- JavaScript
- Database Management
- Wordpress
- Application Programming Interface (API)
- Angular & Node Js

After the completion of this course students shall apply any for job roles related to **Web Development** at any companies including MNC's

Why to choose IEMLabs?

What makes this course much more exciting is that we provide **hands - on training** procedure through projects and practical based classes throughout the entire curriculum of the course.

We at **IEMLabs** provide both **Online** (through platforms like "*Google Hangout Meet*", "*Go to Meeting*", "*Zoom", etc)* and **Offline** mode classes. The most beneficial point for a student to get trained by **IEMLabs** is "**One Year Lab Access**", i.e. every student from the date of admission will have access to our "**Online Virtual Lab**" for practising and getting all notes, pre-recorded videos and tools according to their course for one year absolutely free of cost.
