Certified Java Developer | CJD

Introduction to the Course

Java has become the one of most popular programming languages in the world. This is simply because of the wide range of its applications, starting from **Game Development**, **Graphical User Interface (GUI) Development**, etc.

Java is a great programming language for people who have started programming. This course will help you to get a strong fundamental base in core **Java** programming.

The **Certified Java Developer | CJD** course organised by **IEMLabs** goes step-by-step into **Java Development** methodologies. After the completion of this course the students will be able to develop **Java** programs successfully. Maximum companies all over the world recruit **Java Developers** in their companies. Even **Google** recruits **Java Developers**, giving them a good salary package.

At the end of this course the students will know about: -

- Basics of Java
- Arrays
- File handling
- OOP concepts
- Functions

Overall, you will have a good fundamental base on how **Java** works and will be able to code complex programming problems in **Java**.

Why to choose IEMLabs?

What makes this course much more exciting is that we provide **hands - on training** procedure through projects and practical based classes throughout the entire curriculum of the course.

We at **IEMLabs** provide both **Online** (through platforms like "*Google Hangout Meet*", "*Go to Meeting*", "*Zoom", etc)* and **Offline** mode classes. The most beneficial point for a student to get trained by **IEMLabs** is "**One Year Lab Access**", i.e. every student from the date of admission will have access to our "**Online Virtual Lab**" for practising and getting all notes, pre-recorded videos and tools according to their course for one year absolutely free of cost.
