# COMPANY PROFILE

IELabs welcomes you to a World of Innovative Products,  
Services and Courses designed to fit your exact needs.

## IEMLABS.

An unit of IEMA Research &  
Development Pvt Ltd.

# ABOUT OUR COMPANY

IELabs is an ISO 27001:2013 and ISO 9001:2015 certified company, we are also a proud member of EC Council, NASSCOM, Data Security Council of India (DSCI), U.S Chamber of Commerce, Indian Chamber of Commerce (ICC), Confederation of Indian Industry (CII) & Public Relations Society of India (PRSI). The company was established in 2016 with a vision in mind to provide Cyber Security to the digital world and make them Hack Proof.

A Black-Hat hacker can hack into the system and find out all the data which can defame the company. This insecurity calls for increasing the security of the infrastructure of today's Digital World and help to make it Hack Proof. This security can be guaranteed only by a Cyber Security company through its Vulnerability Assessment & Penetration Testing (VAPT) service methods. Thus, the mission and vision of IELabs became to provide Cyber Security to the Digital World, making it more safe and secure.

But gradually the vision expanded as did our missions. The vision was to convert individuals with enormous potential, into like – minded people who can help us in our mission of Hack Proof world. So, to complete the vision IELabs has started to educate Cyber Security enthusiasts through different courses.

Along with the mission of education IELabs is also providing Vulnerability Assessment & Penetration Testing (VAPT) services to different companies and is helping them to make their infrastructure safe and secured from any kinds of Cyber Attacks. IELabs is also onto making of different products like Android Applications, Security Products, Artificial Intelligence (AI) Products, etc.

## IELabs Courses

We provide Certification Courses in genres like Cyber-Security, Networking, Robotics, Programming Language, etc. The trainings for our courses are conducted and designed by expert faculty who have been working on these fields for several years.

## IELabs VAPT Services

VA means Vulnerability Assessment and PT means Penetration Testing. IELabs provide both VA and PT services simultaneously as a single service, because we believe that VA and PT both are equally necessary for a secured infrastructure.

## IELabs Products

We also provide Innovative Products which are developed in our very own lab by our tech geeks. These are Quality Products and are highly beneficial for our valued customers. To know more about them please visit our products section.

## We Provide High Quality Service

Our promise to every client is that we bring extensive experience and professionalism to each project and we deliver superb results by ensuring our support is designed specifically for you and your business. Don't believe on our words, hear it from our Esteemed clients like Lubin Holdings, Crosstack Technologies, SMART USA, Wealthy Waste, Applex.in, Samata Co-Operative Development Bank, BrandMeHigh Technologies, Silpa Sathi and many more.....

# OUR COURSES

We provide more than 35 Certification Courses in genres like CyberSecurity, Networking, Robotics, Programming Language, etc. The trainings for our courses are conducted and designed by expert faculty who have been working on these fields for several years.

The objective of our courses is to provide the course audience with the tools and knowledge to use them to perform during their workplace or improve their knowledge. Taking up a professional course is important to improve your performance in a given career. In order to acquire more advanced and better skills, many people today go for these professional courses.

- ✓ Online Virtual Lab for practising & developing your skills. Access tools, notes & pre-recorded videos .

### » Our Accreditations & Memberships

IEMLabs is an ISO 27001:2013 and ISO 9001:2015 certified company, we are also a proud member of EC Council & NASSCOM, Data Security Council of India (DSCI), US Chamber of Commerce, Indian Chamber of Commerce (ICC), Confederation of Indian Industry (CII) & Public Relations Society of India (PRSI).

Our digital world also opens the door to wonderful new opportunities to connect with customers and we always see to it that the customer is happy with our work.

# IEM Labs

## INNOVATIVE PRODUCTS

IEM Labs aims to develop IT/ITeS/Information and communications technology (ICT) and to also build a world-class ecosystem for cutting-edge technologies and innovation.

Our developer teams are working day and night to bring to you Mobile Apps, Softwares and SMART Devices that help makes your work easy and you can enjoy our products so that when you come to us, we want to fully meet your expectations. You can be sure that the management will be tailored to fit your project.

### Mobile Applications

Every day new innovative options are available due to growing technology. Our Applications like the SMART Job Prep app, ColorMy-Creations, SnapLingo etc. are developed for both iOS and Android. Try them out now !

### Software

Application software applies the power of system software. Check out our AI Based Legal Briefing System Software, Traffic Congestion Detection System or Medical Software at our Company Website.

### SMART Devices

Smart devices seem to be the future and our engineers leave no stones unturned. Check out our Smart Devices such as AI Based Human Assistant Chatbox, Facial Recognition System, PCB Maker and more.

### Career Consultation

We have developed Websites such as Vidya Network where students can look up and apply for various university and colleges, IEM Learning and online Learning Platform Learn more on our Website

### How We Work

Our approach is based on our values and promises. In our process we always focus on quality, testing and want to deliver good software on time.

In order to support these requirements we use many different tools and have a special workflow for development tasks. Check out what you can expect when establishing cooperation with us.

All our VAPT testing are done in our Security Operations Centre so that all your data is safe. Visit [www.iemlabs.com](http://www.iemlabs.com) for more information on our SOC

# OUR VAPT SERVICES

As We Enter Into A World Of Technology And Cyber Operatives, Cybercrime Has Become The Most Widespread Crime In The World. To Protect The Infrastructures From Such Crimes Vulnerability Assessment & Penetration Testing (VAPT) Is Carried Out To Check Whether The System Is Vulnerable To These Kinds Of Threats Or Not.

## REASONS TO WORK WITH US

- 01 Both Manual and Automated Testing
- 02 Detailed Report & Solutions
- 03 On Time Delivery

### NVAPT

Network Vulnerability Assessment and Penetration Testing helps us detect vulnerabilities in your network and servers.

### WVAPT

Web Application Vulnerability Analysis and Penetration Testing helps us to detect and report Web Application Vulnerabilities.

### AVAPT

Android Application Vulnerability Analysis and Penetration Testing helps us to detect and report Android Application Vulnerabilities.

### IVAPT

iOS Application Vulnerability Analysis and Penetration Testing helps us to detect and report iOS Application Vulnerabilities.

### DRS

IEM Labs Data Recovery Services can recover data from hard drives in data loss scenario whether physical or logical.

### SCR

IEM Labs provides Source Code Review services to help you identify and fix security vulnerabilities in your application at the development stages.
