# CERTIFIED BUG HUNTING PROFFESIONAL

CBHP

COURSE
BROCHURE

INTRODUCTION TO THE COURSE

A bug bounty is an optional plan tp locate configuration end programming faults that security teams and developers might overlook. These faults can subsequently resultin big problems. The bug hunters find out the vulnerabilities through performing penetration testing and FubsequentlY release hhe details of the flaws to the pompany in a principled manner.

Various websites ana software companies are currently offering the bug bounty program to reduce their network security vulnerabilities: Reciprocally, they give rewards and acknowledg ment to the bug hunters, The bug bounty program is essentially a rewa rds Program where network security professionals look for vulnerabilities and inform thé companiesabout them to win the bug bounty ewards. As rewards, they receive moneyü acknowledgment, or even jobs. Some of the famous bug bounty platforms are listed below:
• Bugcrowd
• HackerOne
• Open Bug Bounty

FOCUS AREAS

● Wifi Hacking

● Introduction to Cyber Security

Basics of networking ●

Network Security Implementation ●

Technological developments in the IT industry are taking place rapidly around the world. At the same time, cybercriminals are also getting advanced. To secure a company from hacking attacks and data breaches, skilled bug bounty hunters are always in demand.

The Certified Bug _Hunting Professional CBHP program launched by IEMLabs guidesyou on how to identify bugs and fix them.

The training sessions WII be conducted by our industry experts who have experience working in the field of bug bounty hunting over the past 8-10 years. Using the Certified Bug Hunting Professional CBHP certification credential, students will be able to apply for related job opportunities.

ABOUT THE COURSE

- **Course Type:** Basic

- **Eligibility Criteria:**

  → Knowledge of Networking and Web Development
  → Minimum System Configuration Required:

  o Intel i5 Processor

  o 8GB RAM

  o TTB Hard Disk

- **Batch Size:** 5 students maximum
- **Course Duration:** 40 hours

	ONLINE	OFFLINE
COURSE FEE:	13000 INR	13000 INR
TRAINING LOCATION:	ANY	KOLKATA

COURSE CONTENT

MODULE 01	Introduction to Bug Hunting
MODULE 02	Lab Setup
MODULE 03	Guide to Reconnaissance
MODULE 04	Subdomain Enumeration
MODULE 05	Post Scanning
MODULE 06	Installing and Understanding Burp suite
MODULE 07	HTML Injection
MODULE 08	(Cross-Site Scripting)
MODULE 09	Host Header Injection
MODULE 10	SQL Injection
MODULE 11	Unvalidated Redirects and Forwards
MODULE 12	File Uploading
MODULE 13	Rate limits and tricks
MODULE 14	Parameter tampering
MODULE 15	(Insecure Directs and Forwards)
MODULE 16	SSRF(Server-side request forgery)
MODULE 17	Cors Exploitation
MODULE 18	Subdomain Takeover
MODULE 19	Command Injection
MODULE 20	Local File Inclusion(LFI)

COURSE CONTENT

MODULE 21	Remote file inclusion(RFI)
MODULE 22	CSRF(Cross-Site request forgery)
MODULE 23	XXE(XML External Entity) injection
MODULE 24	SESSION COOKIE ATTACK
MODULE 25	Business Logic Flaw
MODULE 26	Privilege Escalation and Automation
MODULE 27	Source code Discloser
MODULE 28	Project

IEMLABS

Unit: 601, Godrej Genesis Building, Block EP & GP, Kolkata-700091, West Bengal, India
