INTRODUCTION TO THE COURSE

This web development course will take the students into the basics of MERN Stack web development from scratch. This is particularly beneficial for the students for getting an edge over the students of other IT training institutes. All our students enjoy competitive advantages and can tackle any real-life situation related to their professions. After the completion of this web development course, students can perform simpler and quicker development of MERN stack web apps. Industry experts will provide the training and they have a lot of experience in full-stack web development

As soon as this web development course is over, students can be eligible for sending applications for any job openings associated with MERN Stack web development.

This Certified MERN Stack Web Developer course introduced by IEMLabs creates perfect value addition to learning because of the arrangement of hands-on training procedures in every aspect of training, starting from classes, projects, and so on.

FOCUS AREAS

● COMPONENTS

● DEVELOPING ANDROID/IOS APPS

HIGH PERFORMANCE ●

JAVASCRIPT XML ●

MERN represents MongoDB, Express, React, and Node. These are the four major technologies that comprise the stack. Here MongoDB is the document database, Express.js is the Node.js web framework, Nodejs is the primary JavaScript web server, and React.js is the client-side JavaScript framework. A MERN Stack Web Developer develops full-stack web applications. They design high-quality web pages. MERN Stack web developers have excellent prospects in the web development industry as many firms are hiring them with lucrative pay packages. Customers pay attention to a company once they view its website. So, skilled web developers are always in demand for creating attractive websites.

Students can attend both online and offline classes with IEMLabs. They find the online classes significantly edifying and appealing as a result of the utilization of instructive and synergistic plat forms such as Google Hangout, Go to Meeting, and Zoom. The most beneficial feature of IEMLabs for a student is the provision of complimentary 12-month lab access. Here, they will get online virtual lab facilities from the date of admission to practice whatever has been taught to them.
