DIPLOMA IN CLOUD AND NETWORK SECURITY

DCNS

COURSE
BROCHURE

In today's IT world, almost all companies are driving their infrastructures towards Cloud and also storing their data in the Cloud Server. This helps them incur less expenditure in comparison to physical hardware components and increases their production efficiency. Although the Cloud Infrastructures are considered secure but there are always some small chances of vulnerabilities being found, leading to cyberattacks for both the Cloud and Network as both the internal and external networks are also part of this process.

That is why IEMLabs brings you this Diploma Course in Cloud and Network Security | DCNS at the end of which you will learn several useful concepts on Python Coding, Ethical Hacking, Networking and Network Penetration Testing altogether.

FOCUS AREAS

- **CPD**
- **CCNA**

- **CEHP**
- **CNPT**

This course is going to offer a significant plus to your career and will help you form a strong fundamental base on Cloud & Network Functioning with their security

This course comes with a lot of excitement for students since we are going to arrange practical-based classes and hands-on projects for the whole tenure of the training program so that they understand the real-world aspects of the course.

Both online and offline classes at JEMLabs make things even more exciting for the students. Communicative platforms such as Google Hangout, Zoom, and Go to Meeting are continuously used for holding online mode classes. The most valuable, point for a student in obtaining training from IEMLabs is the availability of lab access free of cost for 12 months. All the students will be allowed to use the online virtual lab from the day they take admission. They will solve exercises from their lessons; get all notes, study materials, training videos, and informative tools essential for their courses for 12 months free.

Market Job Openings

Listed here are the the jobs that are available following the completion of the Diploma in Clour and Netwrok Security COurse

Cyber Security Analyst

About the Course

- **Course Type: Basic**

- **Eligibility Criteria:**

  → **No Basic Knowledge required**
  → **Minimum System Configuration Required:**

    o **Intel i5 Processor**

    o **8GB RAM**

    o **1TB Hard Disk**

- **Batch Size: 5 students maximum**
- **Course Duration: 40 hours**

	ONLINE	**OFFLINE**
COURSE FEE:	50000/700000 INR	50000/70000 INR
TRAINING LOCATION:	ANY	KOLKATA

Course content

MODULE 01	**Certified Python Developer | CPD**
MODULE 02	**Cisco Certified Network Associate | CCNA**
MODULE 03	**CErtified Ethical Hacking Professional | CEHP**
MODULE 04	**Certified Netwrok Penetration Tester | CNPT**
