# CERTIFIED DIPLOMA IN CYBERSECURITY

DCS

IEMLABS

INTRODUCTION TO THE COURSE

With the development of information technology around the world, Cybercrimes are also becoming more and more prevalent in our daily life. To prevent this from happening, companies are trying to make their infrastructure more and more secure with the help of cybersecurity experts. Thus, Cyber Security is gaining increasing importance in today's world.

That is why IEMLabs brings you this Diploma Course in Cyber Security | DCS. At the end of this course, you will know anything and everything a student needed to know about Python Coding, Networking, Web Development, Ethical Hacking, Network Penetration Testing, and Web Application Penetration Testing altogether.

FOCUS AREAS

- CPD
- CCNA

- CEHP
- CNPT

This course is going to give a boost to your careers and will help you develop a strong fundamental base on Cyber Security and Ethical Hacking.

This IT cyber security certification brings a lot of excitement for learners since the projects and practical-based classes provided CURITY to them are intended to offer hands-on exposure throughout the training duration so that they become aware of the practical features of the course.

Both online and offline classes are quite enjoyable at IEMLabs. The online classes are held with the help of platforms like Google Hangout, Go to Meeting, Zoom, and so on. The one-year free lab access is the most beneficial aspect for a student to receive training from IEMLabs. From the admission date, all the students will enjoy unlimited access to the online virtual lab for practicing their study lessons and gathering notes, materials, videos, and tools appropriate for their courses for 12 months free of cost.
