

DIPLOMA IN WEB APPLICATION SECURITY

DWAS

COURSE
BROCHURE

INTRODUCTION TO THE COURSE

Web Applications are becoming more and more popular in the IT world. The sole reason for this is that a web application runs on a remote server, and installation of a new version of the software takes place in just one location. Put differently, users don't need to update every gadget that utilizes the application on every occasion a new feature is included or a modification is done. However, this makes it more vulnerable to cyber-attacks as compared to Android applications or iOS applications.

That is why IEM Labs brings you this Diploma Course in Web Application Security DWAS at the end of which you will know anything, and everything an IT student needs to know about Python Coding, Networking, Web Development, Ethical Hacking, and Web Application Penetration Testing, all together.

FOCUS AREAS

● CPD

CEHP ●

● CWD

CWAPT ●

This course is going to give a boost to your career and will help you build a strong foundation on the working and development of Web Applications as well as strong insight into Web Application Penetration.

Students will find it exciting to participate in this training program since we are going to provide them practical exposure to whatever they learn. All our training methodologies focus on making the projects and practical classes easily understandable for the students to ensure that they acquire the maximum possible knowledge from their training modules.

IEM Labs is acclaimed all over the world for its interactive online and offline classes. Platforms including Google Hangout, Zoom, and Go to Meeting are the preferred choices for the online classes. The most beneficial prospect for a learner while getting trained by IEM Labs is the free of cost 12-month lab access. From the date of admission, all the students can use the online virtual lab to practice their lessons. They will have training videos, study notes, study materials, and instructive tools for one year completely free of cost.

MARKET JOB OPENINGS

Given below are the jobs that both working IT professionals and students of computer science can apply for once they complete the Diploma in Web Application Security course.

Web Application Firewall Engineer

ABOUT THE COURSE

- **Course Type: Diploma**
- **Eligibility Criteria:**
 - No basic knowledge is required.
 - Minimum System Configuration Required:
 - o Intel i5 Processor
 - o 8GB RAM
 - o 1TB Hard Disk
- **Batch Size: 5 students maximum**
- **Course Duration: 18 months**

	ONLINE	OFFLINE
COURSE FEE:	50000/70000 INR	50000/70000 INR
TRAINING LOCATION:	ANY	KOLKATA

COURSE CONTENT

MODULE 01	Certified Python Developer CPD
MODULE 02	Certified Full Stack Web Developer CWD
MODULE 03	Certified Ethical Hacking Professional CEHP
MODULE 04	Certified Web Application Penetration Tester CWAPT

***Unit: 601, Godrej Genesis Building, Block EP
& GP, Kolkata-700091, West Bengal, India***
