ISO/IEC 9001
| LEAD AUDITOR TRAINING

ISO/ IEC 9001

Introduction to the Course

The ISO/IEC 9001 Lead Auditor Training allows the students to build the essential skills for carrying out a QMS (Quality Management System) audit with the use of largely recognized audit protocols, processes, and systems.

Why the ISO/IEC 9001 Lead Auditor Training Course is so popular? One should attend this training program to gain the expertise and knowledge to schedule and perform external and internal audits in conformity with ISO 19011 and the credential procedure as per the ISO/IEC 17021-1 standard.

The ISO/IEC 9001 Lead Auditor Training is about practical training on IT audits. After completion of the training program, you will be skilled enough to schedule and supervise an audit plan and head an audit team, communicate with clients, and resolve conflicts or disputes. Essentially, to become an ISO/IEC 9001 Lead Auditor, one should have previous auditing experience. The ISO/IEC 9001 Lead Auditor training by IEMLabs is targeted at delivering expert candidates who can lead an audit team in a company.

FOCUS AREAS

- Core IT Operations
- Regulatory Compliance
- Cybersecurity
- Business Change

Thus, IEMLabs has designed this ISO/IEC 9001 Lead Auditor Training Course in the United States. Once you finish the training program, you will be capable of scheduling an audit program, arranging meetings, and presenting audit statements at the end of a year or quarter. The principal responsibility of a lead auditor is conducting audits and that has to be performed regularly.
