INTRODUCTION TO THE COURSE

With the rapid development of information technology, Machine Learning and Data Science are becoming more and more popular. Both of these deal with statistical analysis and prediction of data. The most popular language for Data Analysis and Machine Learning is the Ruby Programming Language which is trending in today's digital world. This is why IEM Labs brings this Summer/Winter training program on Ruby Programming in the US which will help you develop a strong fundamental base in Ruby.

27001 IEM Labs is an ISO 27001 and ISO 9001 certified IT training center. The membership of the EC Council and NASSCOM makes us proud. We have been providing quality training to students in various subject areas since our beginning in 2016. Our top-ranking teachers have contributed significantly to our growth. The interactive mode of teaching we follow has benefitted many students. Thus, IEM Labs brings this Summer/Winter training program on Ruby Programming in America. This is for the gain of those attentive candidates who are curious to know something outside their course curriculum.
